**RE: Notice of Non-Locatability for Mineral Life: UTU-88156
Mining Claims; UMC 357757-357760; UMC 368905-368935**

Dear Mr. Stoddard:

The Bureau of Land Management (BLM), Price Field Office received your mining plan submitted by Mr. David Kingston, Attorney-at-Law, on your behalf on March 24, 2010. The Plan of Operations requested the approval of mining operations associated with mining claims UMC 357757-357760 and UMC 368905-368935, located in Emery County. The BLM has considered your application/mining plan and has determined that it will not be possible to authorize it under the 43CFR3809 regulations, but rather the 43CFR3600 regulations which classifies humate as a saleable mineral and not locatable. This saleable mineral determination increases the complexity of the project; therefore, the BLM would like to meet with you to discuss these varied issues. Please contact us at your convenience so that we can schedule a mutually convenient time to discuss your options.

If you have any questions or comments please contact Chris Conrad at (435) 636-3667.

Sincerely,

Stephanie J. Howard
Associate Field Manager
